LPN's 2014 BENEFICIARIES

Cycle for the Cause: The Northeast AIDS Ride is the Lesbian, Gay, Bisexual & Transgender Community Center's three-day, roughly 275-mile bike ride that begins in Boston and ends with a grand homecoming in New York City. With the help of our community, Cycle for the Cause has raised millions of dollars for the HIV and AIDS related programs and services of The Center. **Team Eagle** is a collection of leathermen, women and their allies who have been riding under the Eagle Banner in the AIDS ride for The Center since its creation in 2006. In 2013, the individual members of Team Eagle helped raise more than \$150,000 for these critical programs and was the #1 fundraising team of the ride, besting even Team Goldman Sachs. Through passionate pleas, creative events and collaborative fundraising efforts, Team Eagle represents the very best of the leather community and counts among its members several past Mr. Eagles (and one past Empress!)

New Alternatives for LGBT Homeless Youth was created in October, 2008 by a group of volunteers and professionals with experience working with homeless LGBT youth in various shelter and transitional housing settings. The mission of the organization is to increase the self-sufficiency of homeless LGBT youth to enable them to "go beyond" the shelter system and transition into stable adult lives. We do this by providing services such as case management, education services, life skills training, community-building recreational activities, opportunities for self-expression, and support services for HIV+ youth. Our guiding principles are those of harm reduction, youth development, and empowerment.

Heritage of Pride works toward a future without discrimination where all people have equal rights under the law. We do this by producing LGBT Pride events that inspire, educate, commemorate and celebrate our diverse community.
